All present employees who are not members of the Union and all employees who are hired hereafter shall become and remain members of the appropriate Union as a condition of employment not later than the eighth (8th) day following the beginning of their employment or the effective date of this Agreement, whichever is the later. Failure of any employee to comply with the provisions of this Article shall, upon the request of the Union, result in the termination of such employee. Upon written request, the Employer shall furnish a designated Union official on each job with the names of any new employees not later than eight (8) days after employment upon forms to be supplied by the Union. The Employer shall not justify the discrimination against any employee for non-membership in the Union (a) if he has reasonable grounds for believing that such membership was not available to the employee on the same terms and conditions generally applicable to other members, or (b) if he has reasonable grounds for believing that membership was denied or terminated for reasons other than the failure of the employee to tender the periodic dues and initiation fees uniformly required as a condition of acquiring or retaining membership.

Employer agrees to check off Union dues and initiation fees, and turn the same over to the proper Union officials upon presentation of proper authorization cards supplied by the Union and signed by the employee, in conformity with the Labor Management Relations Act of 1947 as amended. The Employer shall not be held liable for, and the Union agrees that it will indemnify and hold harmless the Employer from any claims arising from

disputes between the Union and its Members concerning dues and initiation fees. Employer, upon written request and for good cause, will supply the Union with a list of all its employees' names who are performing its bargained for unit work covered by this agreement.

**Section 2: Minimum wage scale.** The minimum wage scales to be paid by Employer shall be as set out in Article XII of the Agreement except that such Article may be amended by written mutual consent and agreement. In the event the Davis Bacon Act is repealed, either party may notify the other party of their intent to renegotiate the wage rates within thirty (30) days following the effective repeal date. If a Union fails to submit the negotiated wage rates to the United States Department of Labor or the West Virginia Department of Labor each year in a timely manner or does not properly prevail its wages, the Union will be required to reopen the contract for the purpose of renegotiating the wage rates. If no new wage rate is established through negotiations, the Employer is responsible for payment of the wage rate prevailed at the time the contract is let to bid.

**Section 3. Surety Bond.** The Union may require those Employers who have not maintained a presence in the jurisdiction of the Union for five (5) years or more or who are not previously a party to an agreement with the Union or who are delinquent or who become delinquent in payment of fringe benefit funds and who do not cure such delinquency within thirty (30) days provided by this Agreement to procure, pay the premium for and deliver to the Union a Bond written by a responsible surety company with the amount to be determined in the discretion of the Union, with the minimum sum being Twenty Thousand Dollars and the maximum sum being One Hundred Thousand Dollars (\$100,000.00) plus any existing delinquencies due said fringe benefit funds guaranteeing the payment of all wages and fringe benefits due employees under this Agreement and all payments and penalties due as provided in this Agreement.

An Employer desiring to start work before furnishing such Bond shall make a cash deposit with the Local Union office in an amount to be determined within the discretion of the Union. The cash deposit shall be at least Two Thousand Dollars (\$2,000.00) and not exceed Ten Thousand Dollars (\$10,000.00). His job may then proceed for a period of thirty (30) days. Thereafter, the Surety Bond must be posted before work may continue. Any such deposit shall be refunded to the Employer upon presentation of the Bond. The above Bond and cash deposits are for the purpose of securing the payment by the Employer of all payroll and fringe benefits due employees and shall be refunded to the Employer upon completion of the work, providing that all obligations with respect to payroll and fringe benefits have been paid.

### **ARTICLE III General Working Conditions**

**Section 1: Accidents.** Employees shall immediately report to the Employer all accidents, together with the names and addresses of all witnesses to the accidents. Upon written request, Employer shall furnish the Union concerned with a report of each lost time accident involving a member of that Union on a form to be agreed upon.

**Section 2: Street/highway safety.** Employer shall not require employees to take out on the street or highways any vehicles not equipped with the safety appliances prescribed by law, or any vehicle that is not in a safe operating condition.

**Section 3: Equipment defects.** Employees shall immediately report to the Employer all equipment defects. If an occasion arises that an employee reports defective equipment to Employer and receives no satisfaction, he shall report the matter to the officers of his Union, who shall in turn consult with Employer.

**Section 4: Manning equipment.** Employer shall man his equipment at all times with a sufficient number of men to properly handle the load. There shall be no limit on production by workmen or restrictions on the full use of tools and equipment. There shall be no restrictions other than may be required by safety regulations on the number of men assigned to any crew or to any service except as otherwise provided for in this Agreement.

**Section 5: Safety & sanitary regulations** Employer shall comply with all of the safety and sanitary regulations specified by the laws of the United States of America and the State of West Virginia. Required safety equipment shall be furnished by the Employer. If after analysis by a recognized testing laboratory, materials used in construction are found to be injurious to health and safety to employees, the Contractor will endeavor to correct the situation through reasonable protective measures or substitution of other materials.

**Section 6: Working steward.** The Union may refer a working steward for each shift who will be paid at the journeyman wage rate for the job classification in which employed and will be allowed reasonable time to fulfill his responsibilities for the benefit of the parties to this Agreement. It is understood and agreed that the working steward must be able to productively perform any available work. The working steward shall not be discriminated against for discharging his duties as a steward. The Union shall notify the Employer, in writing, the name of the working steward on each job. Designated officials of the crafts shall be permitted upon the job site provided that said official complies with safety regulations and does not affect the work in progress. Before the Employer discharges or lays-off a steward, the employer must discuss the reason for the discharge or layoff with the local union Business Manager if available.

**Section 7: Foul weather.** Necessary foul weather gear, including over-the-shoe boots, shall be supplied by the Contractor when the weather or type of work requires it and shall be chargeable to the man if lost or damaged beyond ordinary wear and tear. The Employer shall determine when the weather is suitable for work to be available. The Employee shall not be punished for refusing to work in unsafe weather conditions.

**Section 8: Management of operations.**

The Employer, for the orderly, efficient, and profitable operation of it's business, reserves and retains solely and exclusively it's right to manage it's business and projects, except as specifically prohibited or modified by other parts of this agreement. The Employer shall assign work on the basis of traditional work jurisdiction lines. The use of partnering crews may be established only upon approval of the local business agents of the crafts who jurisdictionally have work involved in that portion of the project.

**Section 9: Union workforce.** The Unions will exert their utmost efforts to recruit sufficient numbers of skilled applicants to fulfill the workforce requirements of the Employer. In the event the referral facilities maintained by the Unions do not refer the required number of qualified applicants requested by the Employer within a forty-eight (48) hour period after such request is made (Saturdays, Sundays and holidays excepted), the Employer may withdraw the request and employ applicants from other sources.

The Employer has executed a hiring hall agreement with the Union. Copies of that agreement are made apart hereof by reference and are available at the Constructors' Labor Council of West Virginia, Inc. upon request.

**Section 10: Work place.** Employees shall be at their work place at the starting time, and shall remain at their place of work performing their assigned duties under supervision of the Employer and shall be returned to their vehicle by quitting time. The Employer shall have the right to determine the work place. There will be no organized coffee breaks, rest periods or other non-working time established during working hours. Employees will be guaranteed coffee breaks at their work place, provided that the coffee break does not halt the work of the entire Carpenter crew. It is agreed and understood that coffee breaks, rest periods or other non-working time will not create a general work stoppage. It is agreed and is the intent of the parties that there be a full day's work for a fair day's wage. When working an eight (8), or ten (10) hour shift, Employees shall receive a ten (10) minute unorganized break at their workstation at the mid-point of the first half and second half of each shift. The break shall be coordinated by the Contractor and the Union so not to impede or impact project operations.

**Section 11: Ice water.** The Contractor shall provide ice water in a clean and sanitary container located at

a convenient location for employees with drinking cups provided.

**Section 12: Notice of work status.** Each employee shall furnish the Employer with a phone number or a point of contact where said employee may be reached for notice of work status. Employer agrees to not unreasonably withhold "lay-off slips" or "low earnings slips" if same is requested by an employee. Contractor will provide each employee with a phone number and point of contact for purposes of reporting off, etc.

**Section 13: Saturday work.** In the event Saturday is to be worked, notification must be given the Crafts prior to the start of the last scheduled shift.

**Section 14: Leave of absence.** If an employee is injured and forced to leave the job, he shall be given a reasonable time to gather his personal belongings and tools. Employer agrees to grant the necessary leave of absence without pay in case of sickness or injury, and employee shall receive his former position, if available, upon recovery or the expiration of the leave.

**Section 15: On the job injury.** If an employee is injured on the job, it is the responsibility of the Contractor to provide first aid and transportation of the employee to the nearest hospital or physician. Upon admittance to the hospital by a physician, responsibility of the Employer terminates and the employee is under the supervision and jurisdiction of the physician and the Workers' Compensation Program for treatment and reassignment to duty status. If the employee is allowed to return to work by the physician, and if the employee should require further examination or treatment during duty hours, then the Employer shall pay the employee for such portion of the work day that he is not on the job, provided that the employee may be requested to furnish adequate proof of his attendance for medical treatment. The Employer shall not be responsible for payment to the man for any time devoted to such examination or treatment before or after the normal workday.

**Section 16: Trial period.** New employees may only be referred to the job by the Union and shall be on trial for a period of fifteen (15) workdays and Employer shall be the sole judge of their ability during such trial period. Employees retained after such fifteen (15) workday trial period shall be deemed to be regular employees. The Employer shall not discharge any Employee working more than fifteen (15) workdays without just cause. In the event of termination, any Employee working more than fifteen (15) workdays may request an investigation as to his discharge. Should such investigation prove that an injustice has been done, the Employee shall be reinstated and compensated at his usual rate of pay while he has been out of work.

#### **ARTICLE IV Wages and Work Periods**

**Section 1: Start time.** (a) Starting time of regularly scheduled shift shall be established by the Contractor between the hours of 6 a.m. and 8 a.m. or as agreed upon at the pre-job conference. A Contractor may elect to change the starting time, but must give the Union twenty-four (24) hours notification in advance. Notice shall be effective if orally given to the steward and confirmed with the respective business agent. It is understood that the Employer is not required to pay travel expenses, travel time, zone pay, or subsistence during the term of this Agreement.

(b) It is recognized and agreed that on certain types of work due to owners' specifications, Governmental restrictions and/or traffic conditions, the work or part of the work must be done on multiple shift basis, in which event such shift will be permitted to conform with such restrictions as to starting time or time between shifts, which shall be agreed upon between the union representative and the Contractor.

(c) On highway projects only, when Employees are required to work away from their home base of operation on temporary work, room, board and transportation shall be provided by the Employer. When Employees are required to work away from their home base of operation on a regular job, they shall provide their

own room and board. On highway projects only, the Employee shall be paid for no less than eight (8) hours or his regular shift hours for each day of temporary work, whichever is greater, and in addition, payment for all other time required in the service of Employer. On temporary work on highway projects only, in the event of inclement weather, the Employee will only receive two (2) hours pay for reporting time or actual hours worked, whichever is greater.

**Section 2: Workweek.** Except where provided otherwise by the United States Government, forty (40) hours shall constitute a normal workweek and all hours worked over forty (40) per week shall be paid for at the rate of time and one-half (1-1/2). On Heavy construction projects with gross contract value greater than \$2,000,000.00, the Employee shall be paid at the rate of time and one-half (1-1/2) for hours worked over eight (8) hours on eight (8) hour shifts or at the rate of time and one-half (1-1/2) for hours worked over ten (10) hours on ten (10) hour shifts. Nothing herein shall be construed as guaranteeing any employee eight (8) hours of work per day on eight (8) hour shifts or ten (10) hours of work per day on ten (10) hour shifts or forty (40) hours of work per week. All productive work performed on Sunday shall be computed on a double time basis, and not less than four (4) consecutive hours of work shall be given on Sunday. See "Triple Shift Exception" - Section 3. It is understood that the Employer is not required to pay travel expenses, travel time, zone pay, or subsistence during the term of this Agreement.

Saturday will be considered the make-up day on eight (8) hour shifts and will be paid straight time if the Employee has not worked a forty (40) hour week prior to Saturday. Friday will be considered the make-up day on ten (10) hour shifts and will be paid straight time if the Employee has not worked a forty (40) hour week prior to Friday. If the Employee provides the Employer with written notice twenty-four (24) hours prior to a make-up day that he does not want to work the make-up day, then the Employee will not be penalized for not working the make-up day. On heavy projects with gross contract value of greater than \$2,000,000.00 only, all construction work performed on Saturday will be paid at time and one-half unless Saturday is considered a make-up day. It is expressly understood that an Employee will not be punished for not working on a Saturday.

It is agreed and understood that Employees performing non-productive work such as curing concrete and de-watering will be paid straight time regardless of the day non-productive work is performed.

The Employer and the Unions agree that chronic and/or unexcused absenteeism is undesirable and must be controlled. The Employer may terminate, at its discretion, for chronic and/or unexcused absenteeism as determined at the pre-job conference. The Employer shall be consistent with regard to termination for absenteeism.

**Section 3: Triple shift.** (a) When three shifts are established and operated, the first or daylight shift will consist of eight (8) hours' work, plus one-half (1/2) hour for non-paid lunch. The second shift will consist of seven and one-half (7-1/2) hours' work, plus one-half (1/2) hour for non-paid lunch. For the second shift, the Employee will receive eight (8) hours pay for (7-1/2) hours' work. The third shift will consist of seven (7) hours' work, plus one-half (1/2) hour for non-paid lunch. For the third shift, the Employee will receive eight (8) hours pay for (7) hours' work.

(b) On triple shift operations, the normal workweek shall begin with the first shift Monday morning. All work performed between the beginning of the first shift Friday until the beginning of the first shift on Saturday shall be considered as worked on Friday and paid at the applicable rate for that day. All work performed between the beginning of the first shift Saturday until the beginning of the first shift on Sunday, shall be considered as worked on Saturday and paid at the applicable rate for that day. All work performed between the beginning of the first shift Sunday until the beginning of the first shift Monday, shall be considered as worked on Sunday and paid at the applicable rate for that day.

**Section 4: 8 or 10-hour shifts.** When two 8 or 10-hour shifts are established and operated, a one-half (1/2) hour unpaid lunch period will be provided. Therefore, employees will be on the project site for 8-1/2 hours

or 10-1/2 hours, but will be paid only for 8 or 10 hours. In the event of the utilization by the Contractor of three shifts, the language provided in Section 3, Paragraph (a) of this Article will prevail.

**Section 5: Overtime.** The Employer shall determine when overtime shall be worked and by whom. The Employer shall make every reasonable effort to ensure that overtime work is divided fairly among the carpenters in the established crew performing the work to be worked as overtime. The union designated Steward shall remain on the job at all times when other employees of the same craft are working provided he is qualified to do any of the available work. Any Employees who are dispatched from the local union shall not be denied overtime work to the benefit of Employees who are not based locally. The Employee shall not be required to working overtime unless detrimental to the construction project. Where Employees are required to work overtime beyond the normal shift, the first period shall consist of two (2) hours' work, plus one-half (1/2) hour unpaid lunch time and subsequent periods shall consist of three and one-half (3-1/2) hours' work plus one-half (1/2) hour paid lunch time. If the Employee is required to work during any lunchtime, he shall be paid therefore. The Contractor will make every reasonable effort to provide some type of food during the second or third lunch periods.

**Section 6: Show-up time.** An employee who reports for work at the regular starting time and for whom no work is provided shall receive pay equivalent to one (1) hour at the applicable hourly rate. The employee must report to the Project at the regular starting time and remain available for work during the period compensated to be eligible to receive reporting pay. An employee who is put to work shall be paid for actual hours worked but not less than two (2) hours. On Heavy construction projects with a gross contract value of \$3,000,000.00 or more, an employee who is put to work shall be paid for actual hours worked but not less than four (4) hours at the applicable hourly rate on eight (8) hour shifts and five (5) hours at the applicable hourly rate on ten (10) hour shifts.

**Section 7: Weekly pay.** Employees are to be paid weekly. The workweek shall begin with the daylight shift Monday and payment of wages shall be made not later than Friday of the following workweek. The Contractor and the Union shall mutually agree upon the day on which the Employees shall be paid. Employees who report for their paycheck on a day when there is no work scheduled because of weather or other causes shall not be eligible for reporting pay. All paychecks will be available at the start of the day shift on the established payday. The employee may ask the Contractor to mail his check to his home on a non-work payday and the Contractor will mail said check prior to 12:00 noon on said day.

**Section 8: Lunch Period.** The Lunch period will be routinely held between 11:00 a.m. and 1:00 p.m. unless mutually agreed upon otherwise at the pre-job conference.
